Remarkable Assertion Made by Wilshire at Meeting of Municipal League.

WOULD PUNISH THE GIVER

Committee to Investigate Relations Between City and Public Service Corporations.

(By Associated Press.)

NEW YOFK, April 27.—The Executive Committee of the National Municipal League was instructed by a resolution adopted by the league to-day to investigate the relations between the city and the public service corporations and to make any recommendations appropriate. Professor Frank Goodnew, of Columbia University, read a paper on "The Administration Aspects of the State Central Control."

ministration Aspects of the State Central Control."

Municipal Corruption.

A paper entitled "The Real Cause of Municipal Corruption," by Dr. John B. Roberts, of Philadelphia, caused some discussion among the delegates. It was read by Dr. Roberts, and said in part:

"Study of municipal ills shows their origin to be corporate greed, fostered by personal selfishness and indifference of the citizen. The temper of the citizens makes the social, political and commercial atmosphere of the municipality. The claim that corruption in cities is due alone to allegiance to parties is evidently false, because State and national governments are as honeycombed with corruption as city councils. The same deals, tobbies and bribery are found in Congress, legislatures and town councils. Equally untrue is the assertion that ignorant voters, who sell their votes to those handling campaign funds, are the main factor in fraudulent elections. These are only the puppers of the political leaders, who must have the same intellectual strength, accumt and courage as are possessed by the captains of the fairs.

"It is the men of the latter class who

as are possessed by the captains of industry and the prominent men of affairs, and the second of the captains of the too for evil of the corporation; the purchaseable vote is the tool of the politician, who is bought by the bribes of the corporation. The corporation officers, who are unseen in the transaction, are the leaders of society, the pillars of the church, the 'eminently respectable' citizens.

"Cure of politician corruption in cities will come promptly, if reform organizations will secure evidence and convict of bribery the president and directors of a large railroad, water or lighting company, or put in jail the directors of a large railroad, water or lighting company, or put in jail the directors of a large railroad, water or lighting company for pulminals to whom is due municipal corruption are to be looked for among the business and social associates of the members of this National Municipal League, and not in the political clubs of division workers. They are to be found in the philanthropic circles, the religious circles, the professional circles, the financial circles of the city. The first State that enacts a law to imprison the bribe-giver and to let the conviction of his tempter, is likely to be the first State to have clean city governments in its midst.

Necessary to Give Bribes.

Necessary to Give Bribes.

Necessary to Give Brides.

In response to Dr. Robert's suggestion that the bribe giver and not the bribe taker be prosecuted. H. Gaylor Wilshire said that he did not think that either should be prosecuted. The speaker said that until municipal ownership was a fact it would be necessary to give bribes. The next paper read was one on "Municipal Thrist in European and American Cities," by John Martin, Staten Island.

#### FOREST FIRES.

#### Chester Ladies Overtake and Capture a Snatch Thief.

Special to The Times-Dispatch.)

CHESTER, VA., April 27.—Serious forest fires have raged hereabouts this week. Monday afternoon about 2:30 o'clock the Atlantic Coast Line engine dropped dire at the old brick yard, and, though discovered at once before a suitable force arrived, the wind, which was quite brisk, had got the fire beyond control, and all the section force and citizens could do was to fire back, and such a conflagration has rarely been seen in these parts, destroying about 250 cords of pine wood and burning over 100 acres of land.

and burning over 100 acres of land.

The same day, in the morning, Mr.
Snyder was burning over a site for a
saw mill on the turnpike, about two miles Snyder was burning over a site for a saw mill on the turnpike, about two miles and leaving to get breakfast, the fire got away, and burned over another hundred acres, and the next day the same fire crossed the pike, and burned westward over the old home of Dr. Thomas J. Cheatham, and threatened the farm and home of the late Dr. Samuel D. Drewry and a large lot of cord wood, but a heavy force turning out, plowing and firing, succeeded in stopping the flames, after 200 acres had been baptized in fire. The same day fire was raging on the 'Hab Hazard' estate, and on the Saturday previous the Chester Lumber Company let out fire, which seriously threatened several new residences in West Chester, on the Seaboard Railroad. Fortunately no houses were destroyed in any of the fires.
